

The Schools Indoor Rowing League is open to all of the nations in the UK and across the world. Within the UK there are multiple education systems which divide pupil into year groups differently. In the Schools Indoor Rowing League we have created a League Year Group (see table at bottom of page) to which each nation can refer.

### Rationale (see picture beneath)

Since the 6 Schools League rounds take place through the winter and spring term, the actual age of the children should be same for the majority of these rounds. Looking at the diagram below for pupils who are 11/12, Scotland's S1, England/ Wales Year 7 and Northern Ireland year 8 all coincide for 5 of the 6 rounds. French children are placed as below since French children change school to the *collège* for *6ième*, similar to children in England & Wales changing to Secondary schools for Year 7.
